

FLAMEWORKING CLUB!

Come in and learn a new technique, show and tell what you've been up to, hang out and torch with other flammers, AND get 2 hours of open torch time plus ½ hour of instruction!
Students should supply their own glass and bring along any favorite tools.

ONLY \$20

Tuesday, July 14, 6-8:30pm

STRINGERS, STRINGER CONTROL, AND A FROG

What's all the fuss about stringers, how do you use them most efficiently and effectively? When do you use encased stringers and why? We'll talk all about stringers and then use what we've learned and make a FROG!

Tuesday, July 21, 6-8:30pm

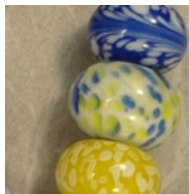

BARNACLES AND BEACH SCENES

Just in time for summer! Learn to make your own simple millefiori cane and apply it to beads to make fun barnacles. Make your own beach 'rocks'. Plus...Learn how to combine dark ivory and intense black to make fun beach scene beads!

Tuesday, July 28, 6-8:30pm

BORO SEA TURTLE

Let's play with boro some more, only this time we'll make turtles! And yes we'll be making more loops!!

Tuesday, August 4, 6-8:30pm

OH... FRIT!

We'll learn several different ways to apply and manipulate frit in this fun soft glass class: Doing a frit pickup with a rod to make a 'cheater' encased bead; Making a quick and colorful frit twistie; Raking frit; Basic encasing; and how NOT to burn your frit. Maggs will talk about different kinds of frit and when it's okay to mix different COE's.

Tuesday, August 11, 6-8:30pm

SOFT GLASS - CORN ON THE COB

It's the season of sweet corn in Wisconsin - so why not make some glass cobs and hang them from our ears or maybe our necks! Cindy will share some simple wiring techniques in this class too.

Tuesday, August 18, 6-8:30pm

MAKE YOUR OWN BORO "CATERPILLAR" ROD REST

Did you know that you can make some of your own tools out of glass? You're not just limited to beads and pendants when you're working in the flame. We'll be making fun, easy rod rests that look like caterpillars in this fun borosilicate class with Maggs.

Tuesday, August 25, 6-8:30pm

SOFT GLASS - LIZARD

Everyone loves a good lizard and all flameworkers love good stringer work! Like all good critters and detail work - stringer is key. Lots of stringer tips and tricks will be offered in this class!
