Olympic HB86P Vitrigraph Kiln

Olympic Kilns introduces its newest model to the Olympic Glass Kilns product line. The HB86P Vitrigraph is a 120 volt model with interior dimensions of 8" x 8" wide x 6.5" deep and temperature control by infinite switch. Vitrigraphing is made easy with an adjustable stand ranging from 23" to 33" high. The HB86P Vitrigraph includes two (2) floors – one of fiber and one made of brick with holes for glass to flow through for hand or tong pulling stringers for designing, drawing and painting. Call (800) 241-4400 or visit our web site for more information about great glass kilns www.greatkilns.com.
